TOWN OF HAMBURG, NEW YORK
STORMWATER PUBLIC COMMENT FORM

The Town of Hamburg invites the public to review and comment on our Year 16 Annual Stormwater Report, Stormwater Management Plan, and other aspects associated with the Town's stormwater management program. This is intended to increase public awareness of stormwater related issues and to encourage public involvement in stormwater pollution prevention, thereby alleviating the resultant adverse environmental impacts to area creeks and waterbodies.

The Town of Hamburg is a member of the Western New York Stormwater Coalition (WNYSC), a group consisting of representatives from Erie County, Niagara County, several local regulated municipalities, and environmental engineering consultants. The members meet on a bi-monthly basis to regionally collaborate on the development and implementation of a comprehensive stormwater management program which is in compliance with the requirements of the Federal and State Phase II Stormwater Regulations. The Town's Year 16 Annual Report details our program accomplishments for the March 2018 through March 2019 reporting period, as well as the shared work products of the WNYSC.

We appreciate your time and effort regarding this matter. Please provide your questions and/or comments below, and submit this form by either e-mail (cjarrell@townofhamburgny.com) fax (649-2522), or U.S. Mail to:
