

# HIGHWAY DEPARTMENT PAVING TOWN MEETING

The Hamburg Highway Department is holding a Town Hall Meeting on Paving for all Town of Hamburg Residents on Wednesday, June 26th, 2019. The agenda for the meeting will be to review the town roads and highways that are in desperate need of paving and discuss in detail the plan to pave them. Highway Superintendent Ted Casey will present his paving plan which utilizes an industry standard matrix of variables, including road condition and traffic volume. The Paving Plan is based on Highway Department official's assessments as well as the two independent Road Condition Assessments performed on the Town's 317 lane miles of road completed by the Greater Buffalo-Niagara Regional Transportation Council (GBNRTC) and Cornell Local Roads Program (CLRP) to determine which roads to pave first.
